

ChimeCom2

Door Answering and Audio Monitoring Set

For Residential and Commercial Applications

Products shown at actual size.

Upgrade any doorbell to an Aiphone intercom for 2-way communication at the door!

Features & Benefits

- **Can replace doorbell**
Keep installation costs low by using existing doorbell wire and/or power
- **Easy to install**
No doorbell? *No problem!* Install the ChimeCom2 system using only two wires, making installation a snap!
- **Secure door answering**
Safely and conveniently speak with visitors before letting them inside
- **Audio monitoring**
Discreetly listen to activity at the door station with the push of a button
- **Simple to use**
Answer calls with simple push-to-talk and release-to-listen operation
- **Reliable and designed to last**
Have trouble-free use for years to come, even after the warranty expires!
